

App. No. 09/743,972
Office Action Dated July 15, 2004

REMARKS

Favorable reconsideration of this application is requested in view of the above amendments and the following remarks. Claim 1 and the Specification are hereby amended. No new matter has been added.

The Specification was amended to include proper sub-headings.

Claims 1-8 were rejected under 35 U.S.C. 112, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The Examiner cited lack of steps for encoding a source mesh in claims. Claim 1 has been amended using correct form and method language. Based on dependence, claims 2-8 should also be reconsidered allowable.

In view of the above, favorable reconsideration in the form of a notice of allowance is requested. Any questions regarding this communication can be directed to the undersigned attorney, John J. Gresens, Reg. No. 33,112, at (612)371-5265.

Respectfully submitted,
